EFFECT OF CLIMATE CHANGE ON FARMERS'S CHOICE OF CROPS

Book Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | An Econometric Analysis | Climate change is being observed through increased average temperatures world-wide, as well as through increased frequency of extreme events, such as floods and droughts. As climate is an uncontrollable yet essential input in the agriculture industry, the impact climate change may have on crop production in Saskatchewan is of importance. The main objective of this study is to investigate how farmers adapt to climate change by switching...
