On Gods Path: The Unfolding Story of Humanity is an optimistic, realistic and pious view of humanity's role on the stage of creation. These stories seem to turn on two centers: science and religion and they are often placed in opposition. The theme of this book is that the truths of science and religion need not be viewed as mutually exclusive, but complementary in the big picture. With a Christian perspective respectful of all faiths, the author weaves the human religious impulse and the Spirit of Christ together brightly into the tapestry of Creation. Written with the lay reader in mind, On Gods Path presents a wide spectrum of mainstream contemporary scientific and theological ideas in surprisingly straightforward and creative ways. Part of the author's objective in this book is to challenge readers to expand their thinking about God and science and to reconsider their own roles in advancing the human story.
