Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.One in five people worldwide lack access to electricity. This is among the many challenges that financial institutions face when providing assistance to lower-income countries in order to promote economic and social development. Access to modern energy sources has the potential to substantially increase worldwide economic growth, creating markets in the developing world for products from the developed world, and vice versa. Filling this need may also result in environmental problems that could threaten development, including an increase in pollution that damages fisheries, reduces farm fertility, poses health risks, and contributes to climate change. In response to these risks, the World Bank Group (WBG) has reported its intentions to revise its strategy for energy and infrastructure lending to better address energy poverty alleviation and environmentally sustainable development. After releasing an Approach Paper in October 2009, and consulting with government and civil society stakeholders from January 2010 to July 2010, a strategy document, Energizing Sustainable Development: Energy Sector Strategy of the World Bank Group (ESS), was presented to the WBG Committee on Development Effectiveness (CODE) on April 11, 2011,...
