THE RECOGNITION POLICY OF THE UNITED STATES (CLASSIC REPRINT) (PAPERBACK)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Recognition Policy of the United States It will always be a great problem for the student of international law to determine the mutual relationships of law and policy. In the past, political considerations have invariably been of preponderating importance, and since this is due to the nature of the international system there is no indication that the future will bring any material change. It should be the task of the constructive publicist to establish and perfect the legal precepts which the practice of states has produced to prevent the purely political considerations from maintaining unrestricted sway. This is best accomplished by first an objective analysis of international facts which may then be interpreted on the basis of subjective thought. It is this latter process which strikes me as being of preeminent importance; it has puzzled writers and jurists from the time of Grotius to the present day, and satisfactory methods or solutions have never been found. This is due in large measure to historical tradition. Grotius and his immediate successors sought on the basis of a law of nature a purely metaphysical interpretation of the facts of international existence, and the scheme of rights and obligations outlined by them has survived to the present day the most vigorous attacks of those who seek to demolish the natural law system. Realizing the fact that these concepts, in whatever form they may appear, are always with us, I have sought in the succeeding pages to give them a definite but limited place in the philosophical interpretation of the significance of recognition. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find...
