FORECASTING DEMAND FOR CIVILIAN PILOTS: A COST SAVINGS APPROACH TO MANAGING AIR FORCE PILOT RESOURCES

Biblioscholar Okt 2012, 2012. Taschenbuch. Book Condition: Neu. 246x189x3 mm. This item is printed on demand - Print on Demand Neuware - The purpose of this research was to create a model that could potentially predict demand for military trained pilots in the airline industry. Specifically, this thesis sought to answer the research question addressing whether or not military trained pilots are currently more in demand or less in demand. The research questions were answered through a comprehensive literature review,...

Reviews

It is an amazing publication which i actually have at any time go through. It really is written in easy words and phrases rather than hard to understand. Its been developed in an extremely easy way which is merely following i finished reading through this pdf in which actually changed me, affect the way i think.

-- **Garry Lind**

It is a single of the best pdf. Of course, it can be enjoyed, still an amazing and interesting literature. I discovered this publication from my i and dad encouraged this pdf to learn.
