Morford says, Your pet s personality can be influenced by what you name it. Their natural temperament will count for approximately 70 and the name you choose will count for approximately 30 . Morford shows you how to analyze your pet s name using the Pythagorean System number chart to correlate each letter of the alphabet to a specific number. Then, she illustrates how to break down the total sum of the numbers into a singular number which is used to analyze the influence of your pet s name on his or her behavior. It s all very intriguing and a lot of fun.
