Reviews

A whole new electronic book with an all new perspective. It is one of the most incredible book we have read. Your way of life span will likely be convert when you comprehensive reading this article book.
(Spencer Fay)

THE ENLIGHTENMENT: AND WHY IT STILL MATTERS

Oxford University Press. Paperback. Book Condition: new. BRAND NEW, The Enlightenment: And Why it Still Matters, Anthony Pagden, The Enlightenment and Why It Still Matters tells nothing less than the story of how the modern, Western view of the world was born. Cultural and intellectual historian Anthony Pagden explains how, and why, the ideal of a universal, global, and cosmopolitan society became such a central part of the Western imagination in the ferment of the Enlightenment - and how these ideas have done battle with an inward-looking, tradition-oriented view of the world ever since. Cosmopolitanism is an ancient creed; but in its modern form it was a creature of the Enlightenment attempt to create a new 'science of man', based upon a vision of humanity made up of autonomous individuals, free from all the constraints imposed by custom, prejudice, and religion. As Pagden shows, this 'new science' was based not simply on 'cold, calculating reason', as its critics claimed, but on the argument that all humans are linked by what in the Enlightenment were called 'sympathetic' attachments. The conclusion was that despite the many tribes and nations into which humanity was divided there was only one 'human nature', and that the final destiny of the species could only be the creation of one universal, cosmopolitan society. This new 'human science' provided the philosophical grounding of the modern world. It has been the inspiration behind the League of Nations, the United Nations and the European Union. Without it, international law, global justice, and human rights legislation would be unthinkable. As Anthony Pagden argues passionately and persuasively in this book, it is a legacy well worth preserving - and one that might yet come to inherit the earth.
