Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.

ILLULLINATING POWER OF KEROSENES Comparison of the Illuminating Power of Kerosenes used in the State of Iowa, with their Physical Properties. INTRODUCTION. Historical. The kerosene oil industry in the United States dates back to about the year 1850, although evidences are found in the oil producing regions of Pennsylvania which indicate that the existence of the oil was known long before that date. According to Brannt the first barrel of oil was delivered to Messrs. Stout and Hand of Brooklyn in December, 1857, at 70c per gallon, and hence this firm may be considered as having sold the first illuminating oil in the United States. Soon the price rose to \$2.00 per gallon. At that time the flame diminished rapidly in height and went out on its own account in a short time, even when the basin was still half full of oil....
